Press Release

MecSoft offers localized Brazilian Portuguese versions of VisualMILL Software

Irvine, CA; September 9, 2011: MecSoft Corporation, a global leader in Computer Aided Manufacturing (CAM) software, announced today the availability of Brazilian Portuguese language versions of their software.

“Working in tandem with our master distributor, we are happy to offer Portuguese versions of our VisualMILL software,” stated Jerry Hiller, MecSoft’s Director of International Sales. “Brazil has a rapidly growing and dynamic manufacturing community and demand for a localized version has never been higher.”

The Brazilian Portuguese versions of VisualMILL and VisualMILL for SolidWorks are available exclusively through MAX3D, a value added distributor. MAX3D is also an authorized sales partner for a number of other globally branded software products: SolidWorks, 3DVIDIA and PDMEnterprise.

About MecSoft Corporation

Headquartered in Irvine, California, MecSoft Corporation is a worldwide leader in providing Computer Aided Manufacturing (CAM) software products for the small to mid-market segments. These products include VisualMILL®, VisualXPORT for Inventor®, VisualMILL for SolidWorks®, RhinoCAM™, Alibre CAM® and VisualTURN®. The software delivers powerful, easy-to-use and affordable solutions for users in the custom manufacturing, rapid tooling, mold making, aerospace, automotive, tool & die, woodworking, and education industries.
