## Press Release

### MecSoft Corporation partners with MekanoCNC

**Irvine, CA, September 12, 2012:** [MecSoft Corporation](#), the developer of industry leading [CAM software](#), has announced today a partnership with [MekanoCNC](#), a leading manufacturer of CNC machines in Guatemala.

Located in San Lucas Sacatepequez, Guatemala, MekanoCNC was founded in 2010 and thrives due to their outstanding reputation for selling quality products coupled with exemplary customer service.

MekanoCNC is thrilled to now sell [RhinoCAM](#) which allows them to offer a complete turn-key solution for CNC Router Machining. "This partnership with MecSoft means we will be able to fulfill all of our customer's needs," stated Jose Moran, the CEO of MekanoCNC. "By providing the [CAD /CAM Software](#) from MecSoft with our machines, and selling them in a single package, we will be able to streamline the implementation process of CNC Machines in our customers plants." MekanoCNC chose RhinoCAM for some of the same reasons that attract many of MecSoft's customers. "We have never found a solution that is this affordable and yet so powerful. Our customers draw in many CAD programs, and within Rhino + RhinoCAM they can import almost any format seamlessly," remarked Moran.

MecSoft is also very pleased with this new development. "RhinoCAM bundled with Mekano CNC machines provides a complete, efficient and affordable CNC solution in the wood working industry," states Anita Anand, VP of Sales and Operations at MecSoft. "We couldn't be happier about our new partnership."

#### About MecSoft Corporation

Headquartered in Irvine, California, MecSoft Corporation is a worldwide leader in providing Computer Aided Manufacturing (CAM) software products for the small to mid-market segments. These products include VisualMILL<sup>®</sup>, VisualXPORT for Inventor<sup>®</sup>, VisualMILL for SolidWorks<sup>®</sup>, RhinoCAM<sup>™</sup>, Alibre CAM<sup>®</sup> and VisualTURN<sup>®</sup>. The software delivers powerful, easy-to-use and affordable solutions for users in the custom manufacturing, rapid tooling, mold making, aerospace, automotive, tool & die, woodworking, and education industries.
