1. Earn cash by joining the Customer Referral Program

1. Referrers will be paid \$25 for each qualified lead that they refer to MecSoft.
2. If the lead purchases a product from MecSoft, we will pay the referrer 5% of the product purchase price. On top of this we will also give a 5% discount on the product price to the referred lead.

2. Program Restrictions

1. Leads will be qualified by our sales team before any payout. Leads are considered as qualified leads if they are currently in the market for a CAM product or will be in the market for a CAM product within the next three months.
2. In order for the referrer to get paid the 5% of the product purchase price, the referred lead must purchase a product from MecSoft within three months of the referral.
3. Only new product sales will be considered as eligible product sales. Sales of maintenance, upgrades, training or any add-on purchases do not qualify for a payout.
4. If the lead is already in our database, the referrer will not be eligible for the payout. The referrer will be notified in such an event.
5. Duplicate referrals will be attributed to the first referrer.
6. The program is open only to MecSoft desktop product customers in North America.
7. Cannot be combined with any other promotion.
