Press Release

Alibre and MecSoft announce 64-bit version of Alibre CAM

Irvine, CA, February 17, 2011: [Alibre Inc.](#), which offers the industry's most affordable complete engineering CAD/CAM software solutions, and [MecSoft Corporation](#), a global leader in Computer Aided Manufacturing (CAM) software, announced today the release of Alibre CAM 2011 64-bit.

Alibre CAM 2.0 64-bit, an add-on to Alibre Design 3D CAD software, allows machinists to take full advantage of the 64-bit computing architecture, dramatically increasing the upper limits of what can be machined. "With the increased memory limit of 64-bit software, users can machine parts of nearly any size or complexity without worrying about running out of memory or making tradeoffs in precision," stated J. Paul Grayson, Chairman and CEO of Alibre Inc.

Alibre and MecSoft continue to work together to bring the most affordable, professional CAD/CAM solution to machinists around the world. "Alibre has been a fantastic partner for MecSoft and we are committed to providing their customers with the industry's leading CAM technology," stated Joe Anand, President and CEO of MecSoft.

About Alibre Inc.

Founded in 1997 and based in Richardson, Texas, Alibre is the leading global provider of cost effective professional grade mechanical CAD, CAM, and PDM solutions. A fraction of the cost of other comparable software, Alibre Design offers the same core features of SolidWorks, Pro/E, Inventor, and other mid-range solid modeling packages at a cost that is affordable to any business or individual. Alibre CAM extends Alibre Design to provide integrated 2 1/2 to 5 axis CNC machining. Used by an immensely diverse user base, Alibre Design and Alibre CAM provide design and manufacturing solutions to Fortune 500 companies, small businesses, consulting firms, machine shops, start-ups, hobbyists,

inventors, teachers and students. Alibre products are distributed in 50 countries and in 15 languages. For more information on Alibre, or for a free trial of Alibre Design and Alibre CAM, please visit www.alibre.com.

About MecSoft Corporation

Headquartered in Irvine, California, MecSoft Corporation is a worldwide leader of small to mid-market Computer Aided Manufacturing (CAM) software solutions. Our award winning software products: [VisualMILL™](#), [VisualMILL for SolidWorks®](#), [RhinoCAM™](#) and [Alibre CAM](#) deliver powerful and efficient solutions to users in the rapid manufacturing, mold making, aerospace, automotive, woodworking, education and tool & die industries.
