## **MecSoft Partners with Sibe Automation for Vacuum Forming Solution**

**Irvine, CA, March 9, 2011:** [MecSoft Corporation](#), a global leader in Computer Aided Manufacturing (CAM) software, announced today a partnership with [Sibe Automation](#) to provide an integrated programming and machining solution.

VisualMILL, bundled with Sibe's CNC routers, provides an elegant and powerful solution for the vacuum forming industry. This easy-to-use turnkey system offers outstanding performance and unbeatable value.

"MecSoft is committed to providing comprehensive and value driven machining solutions for the global manufacturing industry," says Anita Anand, Vice President of Sales and Operations. "We have found that Sibe Automation has a very similar commitment and passion to their industry. We are excited to help offer their customers with the best integrated vacuum forming solution available."

When used with Sibe's CNC routers, VisualMILL provides users with the ability to quickly and efficiently create three dimensional vacuum tools in nonferrous materials. Once a panel is created on a Sibe vacuum forming machine, users can quickly program the Sibe router to automatically trim off excess material.

"Sibe Automation is thrilled to offer our customers a CAM solution that is so easy to use and integrates so well with our CNC solutions," stated Simon Gaysinsky, President at Sibe Automation. "Sibe customers have come to expect a one-stop shopping experience when they buy from us. With the addition of VisualMILL, we can offer another 'Plug and Work' system."

### **About MecSoft Corporation**

Headquartered in Irvine, California, MecSoft Corporation is a worldwide leader in providing Computer Aided Manufacturing (CAM) software products for the small to mid-market segments. These products include VisualMILL®, VisualMILL for SolidWorks®, RhinoCAM™, Alibre CAM® and VisualTURN®. Products that deliver powerful, affordable and easy to use solutions to users in the rapid manufacturing, woodworking, mold making, aerospace, automotive, education and tool & die industries.
